

# Day 8 journal entry

Tyler Parker

**Prompt option 3:** *If you could give advice to a student starting this internship next year, what would it be?*

If I could give advice to a student starting this internship next year, I would tell them to make sure they have an updated LinkedIn profile set up ahead of time and then advise them to connect with as many Red Hat employees as possible from the very start of the experience. While I believe I networked quite well and grew my connections a lot over the course of this internship, there were a couple presenters earlier on in the experience that I didn't get to connect with because I didn't think to ask them about it when I met them in person, and then I was unable to find them on LinkedIn after. I think if I went into the internship with that same mindset, I might've connected with a few more people that I would've liked to.
