**Prompt:** *How has your classroom experiences prepared you for the internship? What do you wish you had learned prior to the internship?*

It has helped me because it helps practice the core values in a workplace as well as a school setting. I feel like I knew everything that I needed to know.

**Prompt:** *What is one new skill or piece of knowledge you've gained this week? How do you see yourself applying this in the future?*

I've learned more about presenting, and I will use this for future references when I am presenting.

**Prompt:** *What are some of the differences you've noticed between a school environment and a professional work environment?*

That a school environment is more laid back and chill while in a work environment you need to worry less about conversations with peers and your friends and more about the task at hand.

**Prompt:** *How is the internship meeting or not meeting your expectations/objectives and why? Do you have control of this? Explain.*

This internship has been meeting my expectations, theres only one thing that I would change and it would be less presentations and more engaging with one another, and learning more about the other people participating in the internship.

**Prompt:** *What have you learned about yourself and what you want in a career?*

I learned that I do enjoy working in an office but I do not so much enjoy sitting in meetings.

**Prompt:** *How has this experience affected or changed your career/college plans?*

It has supported my passion in majoring in Business.

**Prompt:** *If you could give advice to a student starting this internship next year, what would it be?*

My advice would be to take advantage of this experience and make the best of it!
